

KOHLER® Command PRO® Engine

The engine that's as tough as your crew.

KOHLER® Command PRO® Engine

It gets the job done. End of story.

When you have a full schedule of lawn and landscaping jobs, you don't have time for your engine to break down. That's why it's essential to choose a KOHLER Command PRO engine — the engine that's been trusted by commercial landscapers for decades.

Command PRO engines exist to make your job easier. In addition to the benefits below, we outfitted this engine with large access panels for easier maintenance. And we built it to last longer between service intervals, so you can cut more and pay less.

Why KOHLER Command PRO?

Advanced Performance and Design

- New automotive-grade head gasket improves durability, reliability and cooling
- New cylinder bore casting/ring pack technology dramatically improves oil life
- Exclusive 10% governor delivers power faster, keeping blades spinning constantly
- Heavy-duty grass screen chops debris, keeping the engine clean
- Hydraulic lifters mean zero maintenance on the valve train

Better Service and Support.

- Kohler Application Engineering Team specs the perfect engine for your mowing application
- Trusted network of more than 13,000 dealers worldwide, with stocked parts to minimize downtime

Kohler Performance Engineering

You speak and we listen. At Kohler, we're constantly reinventing our engines to exceed the expectations of our customers. Some call it going the extra mile. We call it Performance Engineering.
